

EvaluationKIT Mobile App

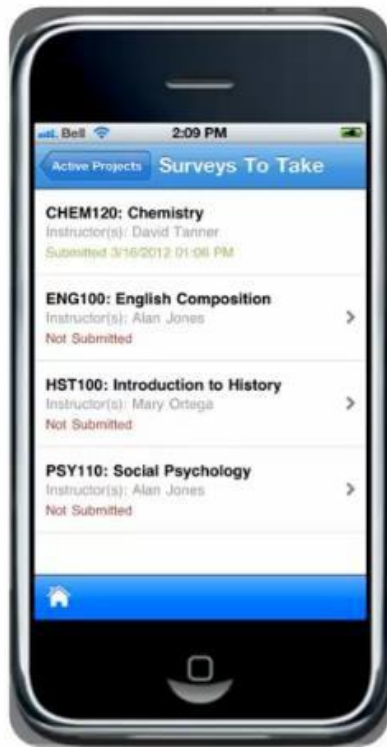

Downloading and setting up the app

1. Depending on your device, the EvaluationKIT app is available from iTunes or Google Play.
iTunes (<http://itunes.apple.com/us/app/evaluationkit-mobile/id511463047?ls=1&mt=8>)
Google Play (<http://play.google.com/store/apps/developer?id=EvaluationKIT>)
2. The first time that you use the app you will be presented with the settings screen. You will be asked to provide your specific EvaluationKIT Mobile User Token. You will have received this information in the initial CNM email notifying you about course evaluations. Enter this token into the appropriate field on the screen.

If you also want to receive notifications from EvaluationKIT in regards to course evaluations, you will need to make sure that the notifications have been enabled on your phone.

3. After entering your token, you will be taken to the home screen. This screen shows all of your course evaluations. It displays the course titles, the instructor(s) and the status of the survey (i.e. whether you have submitted or not submitted it yet).

4. Select an available survey (i.e. Not Submitted) and begin taking the survey.

- For any open-ended questions, the keyboard will appear when you tap in the text box area.

- After you have completed the survey, you will receive a final prompt asking you to confirm your submission. You will receive a confirmation after you have submitted the survey.
